

Research Title: *Deepening an Understanding of the Highly Sensitive Intuitive Empathic Connection*

## Research Project

Hello!

It's great being here with you. Here's a bit more about the research project. Please reach out with any questions.

The purpose of this study is to seek understanding the connection of Highly Sensitive Intuitive Empaths with their abilities via a qualitative research approach. The study will use virtual interviews that will be about 20-30 minutes long. The interviews will ask the same 5 open-ended questions to Highly Sensitive Intuitive Empath participant's. The questions seek to understand their first-hand experiences connecting with subtle energy.

All those interviewed will be 18 years of age or older. This research has been approved by the Internal Review Board, Heartland Institute. All research participation is 100% voluntary.

The purposes of this study are to:

- First, understand first-hand experiences
- Second, observe if any patterns emerge
- Third, if any patterns do emerge during the aggregated and anatomized data analysis phase, a final potential purpose of this study is to share any findings via writing, education, or similar to support other highly sensitive intuitive empaths' during the deepening of their own intuitive connections.

No names of any participants will be used *what-so-ever* unless there is clear written consent for doing so prior to any publication of research findings. Analysis of the information will first be conducted from the single interview with a minimum of 50 participants. After the initial research analysis is conducted (with a 3<sup>rd</sup> party research analyst), a cross-reference of existing peer-reviewed (academic) resources will be analyzed into the final overall study. Citations will occur via APA citation style and any written consent as applicable for 3<sup>rd</sup> party research. The actual peer-reviewed data, sources and specific area of focus remain unknown at this time until the analysis of the research participants voluntary information has been completed.

We're so excited about this project and, if aligned, would be honored to have you be part of it. If you'd like to be considered for this project, please complete the "interested" button and we'll reach out with next steps. Please reach out with any questions in the meantime and have a wonderful day!

Sincerely,

Bonnie Casamassima, *Primary Researcher*
